

PT Cisadane Raya Chemical

Brand Identity

Symmetry and Visual Balance

The logo demonstrates visual balance between the left and right sides, reflecting values of stability, fairness, and professionalism. The placement of the letter “R” at the center, flanked by two “C” letters, creates a strong and solid structure.

Interconnected ‘CRC’ Initials

The letters in this logo are designed in a cursive or connected style. Philosophically, the uninterrupted lines symbolize:

- **Connectivity:** A strong and close relationship among members of the organization, as well as between the company and its clients.
- **Sustainability:** The smooth, flowing curves represent an ongoing and continuous process without interruption.
- **Flexibility:** The dynamic, non-rigid form suggests the ability to adapt to change.

Outer Oval or Circular Form

The oval line encircling the initials functions as a “container.” Its philosophy includes:

- **Unity and Focus:** Representing a solid community or a centralized vision.
- **Protection:** The circular form is often interpreted as safeguarding integrity and preserving internal values.
- **Global / Universal:** Circular or oval shapes are commonly associated with the world and a broad, global reach.
